## How Cloud Manager uses cloud provider permissions

Cloud Manager requires permissions to perform actions in your cloud provider. These permissions are included in [the policies provided by NetApp](#). You might want to understand what Cloud Manager does with these permissions.

### What Cloud Manager does with AWS permissions

Cloud Manager uses an AWS account to make API calls to several AWS services, including EC2, S3, CloudFormation, IAM, the Security Token Service (STS), and the Key Management Service (KMS).

# AWS Marketplace pages for Cloud Manager and Cloud Volumes ONTAP

Several offerings are available in the AWS Marketplace for Cloud Manager and Cloud Volumes ONTAP. If need help understanding the purpose of each page, read the descriptions below.

In all cases, remember that you can't launch Cloud Volumes ONTAP in AWS from the AWS Marketplace. You need to launch it directly from Cloud Manager.

Goal	AWS Marketplace page to use	More information
Enable the use of Cloud Volumes ONTAP PAYGO, Cloud Tiering, Cloud Compliance, and other add-on services	<a href="#">Cloud Manager - Deploy &amp; Manage NetApp Cloud Data Services</a>	<p>This subscription enables charging for the PAYGO version of Cloud Volumes ONTAP 9.6 and later. It also enables charging for Cloud Tiering, Cloud Compliance, and other add-on services.</p> <p>You should subscribe to this offering when Cloud Manager prompts you and redirects you to the page. Cloud Manager prompts you in the Working Environment wizard or when you add new credentials in the Settings.</p> <p>This page doesn't enable you to launch Cloud Manager in AWS. That should be done from <a href="#">NetApp Cloud Central</a>, or alternatively using the AMI listed in row 3 of this table.</p>
Enable the use of Cloud Volumes ONTAP PAYGO, Cloud Tiering, Cloud Compliance, and other add-on services <i>using an annual contract</i>	<a href="#">Cloud Manager (Contracts) - Deploy &amp; Manage NetApp Cloud Data Services</a>	<p>This subscription is an alternative to the subscription in the first row. It enables you to get an annual upfront payment for the listings. It's mostly for NetApp partners.</p>

Goal	AWS Marketplace page to use	More information
Deploy Cloud Manager from the AWS Marketplace using an AMI	<a href="#">Cloud Manager - Manual installation without access keys</a>	We recommend that you launch Cloud Manager in AWS from <a href="#">NetApp Cloud Central</a> , but you can launch it from this AWS Marketplace page, if you prefer.
Enable deployment of Cloud Volumes ONTAP PAYGO (9.5 or earlier)	<ul style="list-style-type: none"> <li>• <a href="#">Cloud Volumes ONTAP for AWS</a></li> <li>• <a href="#">Cloud Volumes ONTAP for AWS - High Availability</a></li> </ul>	<p>These AWS Marketplace pages enable you to subscribe to the single node or HA versions of Cloud Volumes ONTAP PAYGO for versions 9.5 and earlier.</p> <p>Starting with version 9.6, you need to subscribe through the AWS Marketplace page listed in row 1 of this table for PAYGO deployments.</p>
